Microbial Sampling Pump

The **RCS Microbial Sampling Pump** impacts airborne micro-organisms in an air sample on an agar strip. The sample media are sent to a lab for analysis.

Features:

- Lightweight
- Ease of use
- Constant sampling volume

Accessories:

- Standard
 - Extra battery
- Optional
 - Agar strip
 - Base plate

Applications:

- Microbial sampling of indoor air

Specifications:

Sampling volume	: 40 l/minute
Sampling times	: 0.5, 1, 2, 4 and 8 minutes
Weight	: 1.3 kg (2.9 lbs)
Display	: LED's
Battery	: 4 x D alkaline
